@ our
Multi-Stop
Spring Channel
Awnings

Multi Stop Spring Channel Awnings
are perfect for enclosing Pergolas,
Verandahs, Outdoor Living Areas
and Restaurants
for privacy and sun protection.

They have the distinct advantage of being easy and safe to operate by one person, as the Multi Stop Awning locks into the side channel at any given point and you will never lose control of a Multi Stop Awning.

Multi Stop Awnings are a perfect solution for enclosing a deck from the roof to the hand rail. Recommended for use with a Sunscreen Mesh Fabric, to enhance the view, a Multi Stop Awning can also have an Acrylic, Canvas or Clear PVC Film as its skin.

TAKE A LOOK

@ our Zip Track Awning

They are becoming increasingly popular as a way of creating an enclosed outdoor entertaining area.

There are no unsightly cords and pulleys and the system simply slides up and down in its own "zip" channel system.

The Zip Track stops weather entering around the sides of the blinds due to its unique track which offers a seal to keep out the unwanted elements. Zip tracks are easy to use and glide up and down with minimal effort.
