INTERNAL
SHUTTERS

TIMELESS

ELEGANT

DISTINCTIVE

Fashionline's range of internal shutters has been specifically developed to enhance the beauty of your home whilst offering privacy and added security. The highly versatile system gives you precise control of heat and glare, while at the same time not obstructing your view.

Fashionline's range of internal shutters is available in both natural timber and synthetic materials, and come in a wide range of colours to suit any décor and colour scheme.

All Fashionline internal shutters are manufactured using the latest techniques and use mortise-and-tenon joints which provide great strength and a clean, modern, streamlined appearance.

Offering clear view and tilt-rod operation, along with an easy to use remote control, the Fashionline shutter range is a seamless addition to your décor.

Fashionline internal shutters are available in hinged, fixed, sliding and bi-fold styles along with special shapes to suit any application. These shutters can even be used as larger structures such as room dividers and door panels.

Amhurst

Fashionline's Amhurst range of shutters is made from quarter-sawn western red cedar. The fine grain and warm tones create a unique look that adds atmosphere and a touch of class to any room in your home. Using only plantation timber, these shutters offer a range of stained finishes from light amber through to a deep honey brown coated with a UV stabilised lacquered finish. Amhurst shutters are available in a choice of either aerofoil or flat blade and various sizes.

Sussex

Fashionline's Sussex range of basswood shutters uses the highest quality hardwood along with an extensive palette of paints and stains to create a luxurious product to complement any window. Handcrafted using traditional mortise-and-tenon joinery, the Sussex range can be made to a range of shapes allowing it to complement any architecture. Sussex shutters are made from purpose-grown basswood with the hardness required to resist knocks and bumps, making it ideal for the family home.

Woodbury

Fashionline's Woodbury shutters are constructed using a patented material engineered for its strength, light weight, colour fastness, hardness and water resistance. Fashionline's Woodbury internal shutters are the perfect solution for wet areas such as bathrooms and kitchens along with high wear areas. They can be used throughout the house, or in conjunction with natural timber shutters to complement your entire home.

COMPLETING THE VISION
